

Established in 1974, San Dieguito Engineering (SDE) is an award winning civil engineering, planning and land surveying firm located in Encinitas. We work on public and private civil engineering and utility projects throughout southern California.

SDE is looking to hire a long term, full-time **SURVEY MANAGER** that has a proven track record in project management, mapping, field, and computation experience. Candidate must possess a minimum of 5 years of experience, working full-time in heavy construction with the ability to manage multiple projects, respond to RFIs and prepare field notes, sketches and staking cut sheets. **A Licensed Professional Land Surveyor (PLS) is required.**

SDE offers a competitive salary package including full benefits, profit sharing/401K, and a flex-schedule. Please submit your confidential resume in Word or PDF format only. No links to resume will be accepted.
