CLSA San Diego Chapter  
Steve Martin

Dear Mr. Martin:

I am writing to express my appreciation for the scholarship awarded to me at the 45<sup>th</sup> Annual CSU Fresno Geomatics Engineering Conference on January 27, 2006. I am honored to have been selected as the recipient of the Curtis M. Brown Memorial Scholarship this year.

I am interested in the photogrammetry profession and wish to become a certified photogrammetrist. Your financial contribution will assist me in reaching my career goal and help me finish my education in Geomatics Engineering at California State University, Fresno.

My current goals are to take and pass the LSIT exam this spring, graduate with a B.S. degree in Geomatics Engineering in May 2006, and work following graduation at a photogrammetry company or an engineering company employing photogrammetry.

Thank you once again for your generous donation.

Sincerely,

Teresa C. Contreras
