A message from the Chapter President:

I hope this letter finds each member in good spirits and ready to tackle a New Year. The economic recession has dealt a blow to our membership and I want to take a moment to wish all those that have been affected my sincere condolences. I hope 2010 becomes a prosperous and fruitful year for you and your family.

I am writing this letter to inform you of my goals for the New Year. I feel honored to be the President of the San Diego Chapter and hope to make this year productive and beneficial for our membership.

Land surveying education has been a topic that has floated around our State and Chapter for many years. I believe it is time the San Diego Chapter takes ownership of our local need and directs the necessary resources towards establishing a two year degree program. My first request is directed towards the Ad Hoc Education Committee, re-formed in late 2009. In order to build a successful local community college program the ideal campus must be chosen. Our Ad Hoc Education Committee will then need to work with the chosen campus, aid in sourcing outside funding through grants or endowments and develop a solid program for our future surveyors. This process could take several years, but my goal for 2010 is to choose a campus and start developing a viable program.

My second request is directed towards our general membership. The work of many cannot be done by so few. For our Chapter to be successful and remain a viable source for surveying professionals, participation is paramount. The simple act of attending our monthly meetings aids the Chapter in many ways. I would ask each member to attend as many Chapter Meetings this year that your schedule will allow. We are an association that relies on membership participation. If you believe our profession is one of the greatest around and would like to become more involved, please attend our Chapter Meetings and ask any Board Member or Chapter Representative how you can become active.

Finally, my last goal is for our Chapter to focus on what our Chapter Bylaws Preamble states: "...The San Diego Chapter of the California Land Surveyors Association does hereby dedicate itself to advancing the profession of land surveying...". What are the ways we can advance our profession? Is education the only arena in which we can accomplish that statement? Are we concerned with what others are doing that could be considered land surveying? What does the advancement of technology mean to land surveying professionals? These questions may sound like soul searching but I feel the answers will secure a prosperous future for our membership.

In closing, I would like to share a quote that has kept me surveying instead of pursuing other fortunes or fame. I have edited the quote to ensure it considers all within our diverse profession!

"Yet it seems to me that to a [person] of active mind and high ideals the profession is singularly suited; for to the reasonable certainty of a modest income must be added the intellectual satisfaction of problems solved, a sense of knowledge and power increasing with the years, the respect of the community, the consciousness of responsibility met and work well done. It is a profession for [people] who believe that [we are] measured by [our] work, not by [our] purse, and to such I commend it."

(A.C. Mulford, Boundaries and Landmarks 1912)

Thank you all for reading and please remember participation is paramount!

Sincere regards,

Casey R. Lynch, PLS
2010 CLSA San Diego Chapter President

Chapter Meeting **January 20, 2010**

**CALIFORNIA LAND SURVEYORS ANNOUNCE FORMATION
OF
THE LAND SURVEYORS ADVISORY COUNCIL ON
TECHNICAL STANDARDS
(LSACTS)**

Over the last year, a small group of Professional Land Surveyors have been meeting on a regular basis to discuss the public perception of Land Surveyors as well as to discuss the rapidly changing area of real property law. Beginning with informal discussions, followed by monthly meetings, LSACTS was formed as an advisory organization. Comprised of an eleven member executive board, the organization's principle purpose is to research, summarize, debate, and publish its findings on various topics relating to the principles and applications of the Professional Land Surveyors Act and the California Subdivision Map Act. They also provide peer-to-peer advice to other members of the profession. In support of their charge, the organization adopted the following declaration of purpose:

Virtually all land surveying standards have resulted from the process of judicial precedent, as opposed to being an agreed upon codification of land surveying principles. Consequently, the public unnecessarily become litigants over land boundary location issues created by a lack of consistency in the application of law and the absence of uniform standards of practice.

The public is not well served by having to resort to judicial rulings to resolve common land boundary line issues that may arise in connection with real property disputes. The Professional Land Surveyor is foremost knowledgeable in these matters and can achieve discovery more efficiently so that all but the most difficult cases can be resolved through mediations and arbitrations.

The Record of Survey map is the Land Surveyor's most powerful and respected tool as it should reflect the evidence and legal principles utilized in establishing the boundary lines, encroachments, topography and any other interest in real property disclosed by a field survey and deemed of importance by the Professional Land Surveyor. This map, when filed, permanently memorializes the surveyor's evidence, procedures, landmarks and final conclusions in the public record.

Our organization researches, reviews, debates and publishes opinions and decisions issued by local, state and federal courts whenever they relate to the practice of land surveying. The opinions issued are intended to define and guide the standard of care in California and serve to educate fellow professionals.

We encourage and support mandatory continuing education for Professional Land Surveyors.

We encourage the development of the Land Surveyor's professional relationships with the legal community, the land title industry, the building community, the environmental analysis community, the real estate industry, the GIS community, the land planning community, and the civil engineering community.

These goals can be accomplished by relying upon, or proposing modifications to the following documents and related areas of law:

- *Standard of Care*
- *Records of Survey Maps*
- *Corner Record Surveys*
- *ALTA Surveys*
- *Land Subdivision Maps*
- *Condominium Plans*
- *Preparation of Land Descriptions*
- *Tentative Subdivision Maps*
- *GIS Mapping*

- *Government Required Land Surveying Documents*
- *Application of Surveying Measurements and Measurement Standards within the State of California.*

LSACTS EXECUTIVE BOARD MEMBERS

Michael Butcher, PLS, Gary L. Hus, PLS, CFEDS, Sean C. Englert, PLS, Gregory P. Hopkins, PLS, David E. Woolley, PLS, Michael J. Pallamary, PLS, Casey Lynch, PLS, Robert Lee McComb, PLS, David W. Ambler, PLS, Lawrence A. Stevens, PLS

Members of LSACTS will discuss the formation of the organization as well as answer any questions that may arise.

Location

Best Western Seven Seas – Lord Jim Room

411 Hotel Circle South
San Diego, Ca. 92108
(619) 291-1300
6 p.m. Social/Networking
6:30 p.m. Dinner
6:45 p.m. Program

Please RSVP through our CLSA San Diego Chapter website no later than
Thursday, Jan. 14

The website address is <http://www.sd-surveyors.org>.

Please click on the “Dinner Reservations” button and fill in all of your reservation information there.

If paying with a credit card, please remember to bring in a copy of your receipt for check in.
Those who do not make a reservation cannot be guaranteed a meal.

Dinner - \$25
Mexican Buffet

**Chicken Fajitas, Cheese Enchiladas, Beef Taquitos w/ cheese & pico de gallo, Fresh Warm Flour Tortillas
Spanish Rice , Refried Beans, Fresh Fruit Tray, Corn Tortilla Chips & Salsa, Guacamole & Sour Cream
Coffee, Tea or Decaf, Key Lime Cheesecake**

General Meeting

December 16, 2009 at Best Western Seven Seas

Note: There was no Executive Board Meeting in December.

The December meeting was the Chapter Holiday Party. Pat opened the meeting at 6:30, which began with a Prime Rib or Grilled Salmon dinner. Raffle prizes were awarded between courses. The raffle prizes were generously donated by the following vendors, individuals, and companies:

- Prism Surveying & Construction Systems
- Lewis and Lewis Enterprises
- Surveyors Service Company (Servco)
- Allen Instruments & Supplies
- Electro Optical Instruments
- Gary & Bobbie Chapman
- Psomas
- Rick Engineering

Casey introduced the entertainer and comedian, Dante.

Dante was a stand-out on NBC's Last Comic Standing, where he became one of only two comedians in the history of the show to receive back-to-back audience favorite awards. He won the \$10,000 grand prize on America's Funniest People, and currently holds the record for most comedy awards ever presented to a single comedian at the BET Comedy Awards. In addition to being one of the hottest stand-up comics and hosts currently touring, Dante is also an accomplished actor. He starred for 2 years on the sitcom, The Blackberry Inn on BET and was the commercial spokesman for ICE LITE. He is currently schedules to star in 2 comedy movies for National Lampoon.

After the entertainment, the final raffle prizes were given out. Pat and Casey then presented awards and certificates to various members who have contributed their time and efforts towards the Chapter in 2009.

Pat then passed the "gavel" on to next years Chapter President, Casey Lynch. Casey called for a motion to adjourn the meeting. The motion was made and seconded. The motion passed unanimously.

Submitted by Blake Torgersen, Chapter Secretary.

December Treasurer's Report – Education fund \$13,705.09. General fund \$23,186.68

Education/Seminars/Workshops

The **LSR 2010 schedule** is updated with some additional speakers that are working together (as partners in crime). See the Chapter web-site for more info: <http://www.sd-surveyors.org/LSEexamReview/index.php>

Schedule for LSR 2010

49th CSU, Fresno Geomatics Engineering Conference

Fellow Surveyors, Photogrammetrists, Geodesists, GIS Analysts, Geomatics Engineers and Students,

On behalf of students in the Geomatics Engineering program at California State University, Fresno, we thank last year's conference attendee's, lecturers, exhibitors and all those that contributed in the form of scholarship and auction donations. You have our heartfelt thanks for your support of our program and students, and we cordially invite you to attend the 49th CSU, Fresno Geomatics Engineering Conference at the Veterans Memorial Center in Clovis, January 28-30th, 2010.

This year's event will prove to be even more exciting. We have already lined up some excellent speakers, with more to be added to the venue as the date approaches. If you would like to lecture, or want to request a particular speaker, please contact Daniel Cerda at speakers.gmeconf@gmail.com. For the current list of speakers and topics, please see the attachment with this email. Also attached is a registration form. If your company would like to exhibit, please contact Chris Zumwalt and Jacob Andresen at exhibits.gmeconf@gmail.com.

As always, we are looking for donations for our auction and scholarship fund, so please take the time to clean out your closet for auction items and check the sofa for loose change! JR Gregory is in charge of scholarships this year. Please contact him at gmescholarships@gmail.com to donate. Paul Fridley is handling the auction and can be reached at gmeauction@gmail.com. New this year: we now accept MasterCard and Visa (no public cards please) for you convenience. If you have additional questions or comments, please contact us through our website www.csufresno.edu/geomatics/conference. A portion of your registration/donation may be tax deductible.

Don't forget to register for the golf tournament on January 28th! Contact Chip Merideth and Tucker Sanders at gmeGolftournament@gmail.com if you would like to sponsor a hole or a student. First hole-in-one wins a new Lexus!

This year all donations will go twice as far with the Lyles Grant matching all monetary donations made.

Please mark your calendar (remember-no football that weekend) and we look forward to seeing you.

Best regards,
David Biswanger & Keith Ream
Chairs, 49th CSU, Fresno Geomatics Engineering Conference

The largest student-run geomatics conference on the west coast is back! January 28th, 29th & 30th the Clovis Memorial District will host a 3-day opportunity to check out the newest surveying equipment, learn the latest techniques and network with industry professionals.

As always there will be great food, fabulous raffle prizes, auction items, exhibitors and nationally renowned speakers.

Looking for competent employees? Fresno State's Geomatics Engineering students are the best and brightest up-and-coming surveying and mapping talent in the country. Resumes will be available.

Come see the show and find out why Fresno State has consistently produced industry leaders since 1971.

Conference Address: Rex Phebus Veteran's Memorial Building
808 4th Street Clovis, CA 93612

For latest updates and more information check out our website: www.csufresno.edu/geomatics/conference

Tentative Speaker List

Speaker	Topic
Robert Burtch, PLS, CP	"Introduction to Telegeoinformatics - An Introduction to Mobile Mapping/GIS"
Thomas H. Meyer	"What does height really mean?"
Steven J. Hyde & Dean D. Exline, PLS	"Ok I Have My License"
Wendy Lathrop, PLS, CFM	"To Accept or Not To Accept...That is the Question" "Highways, Byways, and Private Roads"
Michael Pallamary, PLS	"Reversionary Rights"
Larry Phipps, PLS	"Pricing Professional Services" "Anatomy of a Claim"
Michael Dennis, RLS, PE	"GPS, Geodesy, and the Ghost in the Machine" "Ground Truth: Design and Documentation of Low Distortion Projections for Surveying and GIS"
Justin S. Pallamary, PLS	"The Universal Surveyor"
Randy Fitch, PLS TBA, James McCavitt, PLS TBA, Jerry Miller, PLS TBA, Chris Bardon TBA

Cuyamaca College - Cuyamaca College offers an Associate of Science in Surveying that includes courses in Plane Surveying and Advanced Surveying, using equipment used in the field today, Survey Drafting Technology, and Boundary Control and Legal Principles. Other requirements for the degree include Engineering Graphics, Trigonometry, Introductory Physics, and courses to fulfill general education. Instructors are all practicing and licensed professionals.

For additional information please contact Dr. Cyrus Saghafi at cyrus.saghafi@gcccd.edu or 619-660-4243..

College of the Canyons - Prep class for LSIT and Fall program for Surveying. COC will be offering an 8 week prep class for the LSIT exam. And, in the Fall, their Surveying program will be offering Surveying 101: Intro to Surveying and Surveying 105: Boundary Control and Legal Principles I. Contact www.canyons.edu or 661-362-3300.

Geospatial Analysis and Technology – Seminars, courses and software training. www.UCRExtension.net/geo 951-827-4105.

CLSA San Diego Survey Student Stipends

The Stipend program's goals are to: provide funding for local students taking college level survey related classes. They will receive \$100 for an A, \$75 for a B, \$50 for a C. It will be limited to one survey class per student per semester. The Class must have been completed within the last 6 months. Applicants must be current members of the San Diego Chapter of CLSA. Licensed Land Surveyors are ineligible. All applications are subject to approval by the executive board. Applicants need to mail in a copy of their grade (of a surveying class) to: CLSA San Diego, 5519 Clairemont Mesa Blvd. Mail Box 261, San Diego, California 92117.
